

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. We find, by the report of the State Superintendent of Schools for New Hampshire, the following facts: The amount of School Money raised in New Hampshire, last year, by taxation was \$282,606.58—an advance upon the previous year—and it says more will be needed for next year. The average amount of School money was \$3.69 per Scholar; average wages of Male Teachers, \$31.64 per month; of Female Teachers, \$16.78.

Number and Value of Farm Stock, and Value of Lands in New Hampshire, in April, 1868.

There being no changes made in the official account of these items oftener than once in 4 years, we have endeavored to obtain corrections from the towns themselves; but with only partial success.

THE GOVERNOR

Of New Hampshire is chosen annually, on the second Tuesday of March, by a majority vote, and takes his seat on the first Thursday of the following June. In case of no election by the people, the Legislature elects one of the two persons having the highest number of votes.

A person, to be qualified to hold the office of Governor, must be thirty years old, and an inhabitant of the State for seven years, last preceding his inauguration. In case of the death, disability or resignation of the Governor, the office is filled by the President of the Senate.

The Executive Council consists of five Councilors, elected by districts at the same time and in the same manner as Governor. The Governor and Council appoint all judicial officers—the attorney general, solicitors, notaries, sheriffs, coroners, registers of probate, and general and field officers of militia.

BEING UNDER THE NECESSITY

Of filling this page, which would otherwise be unoccupied on account of an advertiser's not coming to time with a copy, we take the liberty of saying, in addition to what we have said, or will say on page 170, when you call for it, that we wish to call special attention to the contents contained between this page and page 152. We call attention to the Business Directory of the State of New Hampshire, which occupies sixty-two pages of solid matter, in small type. There is not a shadow of doubt that it contains THOUSAND names of men and firms, holding office or business in our State. Is it worth *twenty cents* to one of those men and firms to have their names printed? If it is, we ought to sell ten thousand copies of this book, without going outside of that list of names. But the book is an equal convenience to every person living in the State, and to many others who do business in it. Reasoning thus, we anticipate the result when we shall sell TWENTY-FIVE THOUSAND copies annually. Such a sale would enable us to put the price lower than it is—though it would seem that no person could be unwilling to give so small a sum for so

valuable information, in so convenient a form for quick and easy reference.

But some one may ask, *is the information valuable? Is it reliable?* In reply to this we have to say, *not a line of it is taken at second hand.* It all comes from original sources. The man in each town who is supposed to be most capable of giving it—the man whom the people have chosen to keep their records—the man who *must* know who is born, who is married, and who dies—the TOWN CLERK, is the one invariably first applied to, and very seldom is the application in vain. Every one of them has a copy of the former edition of the Register and knows its value; and, in most cases, the information is given with alacrity,—those to whom we have to send a second time almost always apologizing for what they are pleased to look upon as neglect of duty.

But this is not all. After we get the type set, we refer the proof, *usually*, to *two or three other* persons in the town, and, if they make any corrections, *in time*, we adopt them. Of course, after all, there will be errors; but, having taken such measures to be correct as we have described, we do not feel that more could be asked of us, but, on the contrary, that the errors should be passed over as necessary in the nature of the case.

The same is true, we may here add, about the other portions of our little book. Very great pains have been taken to have it accurate, and it is believed that it is as nearly so as is practicable.

In conclusion, may we not ask that those who purchase a New-Hampshire Register, and read it, and like it, will commend it to their neighbors, as well for their sakes as for ours—but particularly for *ours*, that we may receive a fair remuneration for our labors and outlays in behalf of the people of "The Old Granite State?"

BUSINESS DIRECTORY.

The following pages contain the names of every town in the State, alphabetically arranged—the name of the County being given in each case—with the names of Town Officers, Professional Men, Merchants, Manufacturers, Hotel Keepers, Express and Telegraph Agents, R. R. Station, &c. &c., also systematically arranged.

NOTE.—A dash (—) is used to separate names having different P. O. address, though belonging to the same town. If the address is not particularly given, it is that at the beginning of the paragraph. Physicians are understood to be allopathic unless otherwise designated. Merchants not classified are supposed to keep a general assortment. Justices of the Peace will be found in the list of County Officers, elsewhere.

All these statistics are obtained, new and direct, every year and the utmost pains is taken to have them correct at the time of going to Press, but the publishers will be thankful for any seasonable corrections or valuable suggestions from any person who feels sufficient interest to make them. Particular attention is called to what we have to say for ourselves in the Editorial—SEE INDEX.

Duties of Persons subject to Income Tax.—It shall be the duty of every person of lawful age, whose gross income during the preceding year exceeded \$2000, to make and render a return, on or before the day designated by law, to the assistant assessor of the district in which he resides, of the gross amount of his income, gains, and profits as aforesaid; but not including the amount received from any corporation whose officers, as authorized by law, withhold and pay as taxes a per centum of the dividends made and of the interest or coupons paid by such corporation, nor that portion of the salary or pay received for services in the civil, military, naval, or other service of the United States, or as senator, representative, or delegate in Congress, from which tax has been deducted, nor the wages of minor children not received; and every guardian and trustee, executor and administrator, and any person acting in any other fiduciary capacity, or as resident agent for, or co-partner of, any non-resident alien, deriving income, gains, and profits from any business, trade, or profession carried on in the United States, or from rents of real estate situated therein, shall make and render a return as aforesaid to the assist-

ant assessor of the district in which he resides, of the amount of income, gains, and profits of any minor or person for whom he acts. The assistant assessor shall require every such return to be verified by the oath of the party rendering it, and may increase the amount of any return, after notice to such party, if he has reason to believe that the same is understated. In case any person having a gross income as above, of \$2000 or more, shall neglect or refuse to make and render such return, or shall render a false or fraudulent return, the assessor or assistant assessor shall make such return, according to the best information he can obtain by the examination of said person, or of his books or accounts, or by any other evidence, and shall add, as a penalty, to the amount of the tax due thereon, fifty per centum in all cases of willful neglect or refusal to make and render a return, and one hundred per centum in all cases of a false or fraudulent return having been rendered. The tax and the addition thereto as penalty shall be assessed and collected in the manner provided for in cases of willful neglect or refusal to render a return, or of rendering a false or fraudulent return. But no penalty shall be assessed upon any person for such neglect or refusal, or for making or rendering a false or fraudulent return, except after reasonable notice of the time and place of hearing, to be regulated by the Commissioner of internal revenue, so as to give the person charged an opportunity to be heard: *Provided*, That no collector, deputy collector, assessor, or assistant assessor shall permit to be published in any manner such income returns, or any part thereof, except such general statistics, not specifying the names of individuals or firms, as he may make public, under such rules and regulations as the Commissioner of Internal Revenue shall prescribe.

tain any manuscript writing whatever. Daguerreotypes, when sent in the mail, are to be charged with letter postage, by weight. FRANKING.—Franking is restricted to the president, his private secretary, the vice-president, heads of executive departments, heads of bureaus and chief clerks to be designated by the Postmaster-General, senators and representatives, secretary of senate and clerk of house. Besides these, the commissioner of Education possesses the official privilege: and all copyright books, maps, etc., may be forwarded to the Librarian of Congress, free of postage, provided the words "copyright matter" be plainly written or printed on the package. And postmasters are required to give receipts for such packages if required. Certain Revenue officers, also, besides those mentioned in the section above named, possess the privilege as an official trust, as follows: Assessors may frank on official business to Assessors, to assistant Assessors, and to Collectors; Assistant Assessors may only frank to Assessors. Collectors may frank to collectors, Deputy Collectors and Assessors; Deputy Collectors may frank only to Collectors. No communication, official or otherwise, from these officers to private citizens can be sent free. The Act of March 1, 1869, relating to franking, makes no change in the privilege, but merely enacts that the signature of the franking party must be written, and not printed. PUBLISHERS' WORDS.

In putting forth this third volume of our NEW-HAMPSHIRE REGISTER, BUSINESS DIRECTORY and FARMER'S CALENDAR, we, as usual, have a few words to say to those for whom the work is designed.

It is possible that we have before said that we undertook the business because we thought, and others thought, that *such a thing was needed*; but it will do no harm to say it again, now that some of the people have had an opportunity to judge for themselves. The fact were that there was nothing of the kind published which had any general circulation. There was, and is, a very good "Political Manual" published, and we cannot see that it is any the worse since it began to copy from us, tables which we, at considerable expense, obtained from their original sources, through the politeness of the Secretary of State; but its price puts it out of the reach of the many and leaves it a luxury for the few. *This is all we have to say on the subject of stealing* and other people's works—the remainder about our own.

We ask the PEOPLE to support it because it has no other support. Were it not for the advertising which we do this year, the gratification of our desire to place a book of the kind in every family in the State, or to introduce it as generally as the Vermont Register, published by us, is introduced, would cost us many a dollar, as it has already cost us many a day's toil and anxiety.

But we are confident of patronage, just so soon as people find out what we are doing for them, and, to that end, all that we have room here to say is, *examine the book for yourself*. Look for anything you wish to know about New-Hampshire, and by using the help of the Index, you will find it. Then remember, that, instead of paying fifty cents for it, you paid but twenty, and we will be satisfied with your decision. If you find some errors in it, don't blame us altogether, but first divide it among the five or six hundred of your own neighbors who have put what is here published into our hands as facts, and we will bear what is left.

It would be impossible to make such a book PERFECT. All we claim is, that we have taken every pains to have it so, and that we have witnesses to that fact in every town and village in the State. Such as it is, we only ask your generous support to make it better in every successive year.

We wish to add a word about our *advertisers*. We believe them all to be reliable business men. They belong to the class of "THE MEN WHO ADVERTISE," and were selected by us for that very reason; and they use our pages for the sole reason that they know them to circulate among the most intelligent people of the State. If you wish for anything which they advertise, you may depend on fair dealing.

A WORD WITH YOU.

THE NEW-HAMPSHIRE REGISTER, BUSINESS DIRECTORY AND FARMER'S ALMANAC, being offered to its patrons for its fourth year, we wish to call the attention of the people of the State to what we are doing for them. By reference to the Table of Contents it will be seen that we profess to give information to those seeking it, on something like a hundred different subjects connected with the interests of the people. It is not necessary to enumerate them here. Suffice it to say that if any one wishes to know the name or residence of any State or County Officer; the time or place of holding any Court, Probate or Judicial; the name of any Bank or Cashier of the same; if any one wishes to ascertain whether he can obtain a Money Order on any particular Post-Office in the State; to know the number of inhabitants, or the number of votes cast in any town, or the valuation of a town, or its portion of the State taxes; to know the R. R. Station of any town in the State, or whether it has stage connection with its Station and how often; if any one wishes to know the name of any Clergyman of any denomination, officiating in any town in the State, or the name of any Lawyer, Doctor, Merchant, Manufacturer, Mechanic—in short, we have almost said, if any one wishes to know *who lives* in every town in the State and what he does for a living, he can find out by carefully consulting the pages of this little book.

We expressed the opinion, last year, that the Business Directory contained the names of *Ten Thousand* men and firms doing business in the State. We have this year added the names of Mechanics and Artisans, doing business in their own name, and now affirm that there are not many less, taking the Business Directory and State County and Town Officers together, than *Twenty Thousand* names given, but if any one will count them and furnish us the exact number, we will cheerfully correct any error we may have made in this estimate!

We invite particular attention to the improvements made in the form and matter of the Register this year. To say nothing of the addition of so large a class of names as that of Mechanics and Artisans, the careful observer will notice that whereas the County Officers and Justices of the Peace, although arranged in Counties, were hard to find on account of the arrangement of the Counties themselves, they are now as easy to find as a word in the Dictionary, because they are arranged on precisely the same principles. And it is a general principle, running through the whole volume, that things which can be so arranged *are arranged in alphabetical order*. The principle will be found to run all through the Business Directory, so that it is not necessary to look through a page to find *wheelwrights* because they will invariably be found at the end of the list of *Mechanics & Artisans*, while Mechanics & Artisans, printed in black letters will not be found at the beginning of a long business directory, but where they belong in the order of the black letter, corresponding to the order in the Note prefixed to the Directory. The black letter itself, is, of course an improvement upon the italic used before.

Persons having anything to do with Banks, Insurance Companies and Newspapers will find them exhibited, each in a tabular form, or a single page, with all the important facts connected with them.

But, want of space admonishes us to leave the rest of our improvements to be discovered by those into whose hands the Register, for 1872, may fall. We offer it to criticism, not because we think it perfect, but because we wish to make it so.

THE GOVERNOR

Of New-Hampshire is chosen, annually, on the second Tuesday of March, by a majority vote, and takes his seat on the first Thursday of the following June. In case of no election by the people, the Legislature elects one of the two persons having the highest number of votes.

A person, to be qualified to hold the office of Governor, must be thirty years old and an inhabitant of the State for seven years, immediately preceding his inauguration. In case of the death, disability or resignation of the Governor, the office is filled by the President of the Senate.

The Executive Council consists of five Councilors, elected by districts at the same time and in the same manner as the Governor. The Governor and Council appoint all judicial officers—the attorney general, solicitors, notaries, sheriffs, coroners, registers of probate, and general and field officers of militia.

And the Secretary of the Treasury may make such regulations with regard to the form of said certificates and the issuing thereof, as, in his judgment, may be necessary: *And provided further*, That no claim for drawback on any articles of merchandise exported prior to June 30th, 1864, shall be allowed unless presented to the Commissioner of Internal Revenue within

three months after this amendment takes effect.

Income, what to include.—In estimating the gains, profits, and income of any person, there shall be included all income derived from any kind of property, rents, interest received or accrued upon all notes, bonds and mortgages, or other forms of indebtedness bearing interest, whether paid or not, if good and collectable; interest upon notes, bonds, or other securities of the United States; and the amount of all premium on gold and coupons; the gains, profits, and income of any business, profession, trade, employment, office, or vocation; including any amount received as salary or pay for services in the civil, military, naval, or other service of the United States, or as Senator, Representative, or Delegate, in Congress; except that portion thereof from which, under authority of acts of Congress previous hereto, a tax of five per centum shall have been withheld; the share of any person of the gains and profits, whether divided or not, of all companies, or partnerships, but not including the amount received from any corporations whose officers, as authorized by law, withhold and pay as taxes a per centum of the dividends made, and of interest or coupons paid by such corporations; profits realized within the year from sales of real estate purchased within two years previous to the year for which income is estimated; the amount of sales of live stock, sugar, wool, butter, cheese, pork, beef, mutton or other meats, hay and grain, fruits, vegetables or other productions, being the growth or produce of the estate of such person, but not including any part thereof consumed directly by the family; and all other gains, profits, and income drawn from any source whatever, but not including the rental value of the homestead used or occupied by any person or by his family.

Income Exemptions.—Exemption

of Shakers, &c.—Military or naval pensions allowed to any person under the laws of the United States, and the sum of \$2000 of the gains, profits, and income of any person, shall be exempt from said income tax, in the manner hereinafter provided. Only one deduction of \$2000 shall be made from the aggregate income of all the members of any family composed of one or both parents and one or more minor children, or of husband or wife; but when a wife has by law a separate income, beyond the control of her husband, and is living separate and apart from him, such deduction shall then be made from her income, gains, and profits; and guardians and trustees shall be allowed to make the deduction in favor of each ward or beneficiary, except that in case of two or more wards or beneficiaries comprised in one family, having joint property interest, only one deduction shall be made in their favor. For the purpose of allowing said deduction from the income of any religious or social community, holding all their property and the income therefrom, jointly and in common, each five of the persons composing such society, and any remaining fractional number of such persons less than five over such groups of five, shall be held to constitute a family, and a deduction of \$2000 shall be allowed for each of said families. Any taxes on the incomes, gains and profits of such societies now due and unpaid, shall be assessed and collected according to this provision, except that the deduction shall be only \$1000 for any year prior to 1870.

Additional Exemptions.—In addition to the exemptions provided in the preceding section, there shall be deducted from gains, profits, and income of any person, all national, State, county, and municipal taxes paid by him within the year, whether such person be owner, tenant, or mortgager; all his losses actually sustained during the year arising from fires,

oods, shipwreck, or incurred in trade, and debts ascertained to be worthless, but excluding all estimated depreciation of values; the amount of interest paid during the year, and the amount paid for rent or labor to cultivate land, or to conduct any other business from which income is derived; the amount paid for the rent of the house or premises occupied as a residence for himself or his family, and the amount paid out for usual and ordinary repairs. No deduction shall be made for amount paid out for new buildings, permanent improvements, or betterments made to increase the value of any property or estate.

Duties of Persons subject to Income Tax.—It shall be the duty

of every person of lawful age, whose gross income during the preceding year exceeded \$2000, to make and render a return, on or before the day designated by law, to the assistant assessor of the district in which he resides, of the gross amount of his income, gains, and profits as aforesaid; but not including the amount received from any corporation whose officers, as authorized by law, withhold and pay as taxes a per centum of the dividends made and of the interest or coupons paid by such corporation, nor that portion of the salary or pay received for services in the civil, military, naval, or other service of the United States, or as senator, representative, or delegate in Congress, from which tax has been deducted, nor the wages of minor children not received; and every guardian and trustee, executor and administrator, and any person acting in any other fiduciary capacity, or as resident agent for, or co-partner of, any non-resident alien, deriving income, gains, and profits from any business, trade, or profession carried on in the United States, or from rents of real estate situated herein, shall make and render a return as aforesaid to the assist-

ant assessor of the district in which he resides, of the amount of income, gains, and profits of any minor or person for whom he acts. The assistant assessor shall require every such return to be verified by the oath of the party rendering it, and may increase the amount of any return, after notice to such party, if he has reason to believe that the same is understated. In case any person having a gross income as above, of \$2000 or more, shall neglect or refuse to make and render such return, or shall render a false or fraudulent return, the assessor or assistant assessor shall make such return, according to the best information he can obtain by the examination of said person, or of his books or accounts, or by any other evidence, and shall add, as a penalty, to the amount of the tax due thereon, fifty per centum in all cases of wilful neglect or refusal to make and render a return, and one hundred per centum in all cases of a false or fraudulent return having been rendered. The tax and the addition thereto as penalty shall be assessed and collected in the manner provided for in cases of wilful neglect or refusal to render a return, or of rendering a false or fraudulent return. But no penalty shall be assessed upon any person for such neglect or refusal, or for making or rendering a false or fraudulent return, except after reasonable notice of the time and place of hearing, to be regulated by the Commissioner of internal revenue, so as to give the person charged an opportunity to be heard: *Provided*, That no collector, deputy collector, assessor, or assistant assessor shall permit to be published in any manner such income returns, or any part thereof, except such general statistics, not specifying the names of individuals or firms, as he may make public, under such rules and regulations as the Commissioner of Internal Revenue shall prescribe.

POST-OFFICE REGULATIONS.—JULY, 1869.

The rate of postage on mail letters, to any part of the United States, is three cents a half ounce or fraction thereof. The rate of postage on drop letters, at offices where free delivery by carrier is established, is two cents per half ounce or fraction of a half ounce; at offices where such free delivery is not established the rate is one cent. All drop as well as mail letters must be prepaid. Letter postage is to be charged on all handbills, circulars, or other printed matter which shall contain any manuscript writing whatever. Daguerreotypes, when sent in the mail, are to be charged with letter postage by weight. Photographs on cards, paper, and other flexible material (not in cases) can be sent at the same rate as miscellaneous printed matter, viz., two cents for each four ounces or fraction thereof.

NEWSPAPER POSTAGE. Postage on *Daily Papers* to subscribers, when pre-paid quarterly or yearly in advance, either at the mailing office or office of delivery, per quarter, (three months,) 35 cents; six times per week, per quarter, (3 months,) 30; for tri-weekly, .15; for semi-weekly, .10; for weekly .06. Weekly newspapers (one copy only) sent by the publisher to actual subscribers within the county where printed and published, *free*.

POSTAGE PER QUARTER (to be paid quarterly or yearly in advance) on **NEWSPAPERS** and **PERIODICALS** *issued less frequently than once a week*, sent to actual subscribers in any part of the United States:

Semi-monthly, not over 4 oz., 6 cts.; over 4 oz. and not over 8 oz. 12 cts.; over 8 oz. and not over 12 oz. 18 cts.; Monthly, not over 4 oz. 3 cts.; over 4 oz. and not over 8 oz. 6 cts.; over 8 oz. and not over 12 oz. 9 cts.; Quarterly, not over 4 oz. 1 cent; over 4 oz. and not over 8 oz. 2 cts.; over 8 oz. and not over 12 oz. 3 cts.;

Quarterly postage cannot be paid for less than *three months*. If a subscription begins at any other time than the commencement of an *official* quarter. Subscribers for short terms—exceeding three months say four or five months—can pay quarterly postage for the actual term of their subscriptions—that is for *one quarter* and a third *one quarter* and two thirds, etc. The law only requires that *at least* one quarter's postage shall be pre-paid, and not more than one year's postage. Any term between one quarter and one year can, therefore, be prepaid at proportionate rates.

PUBLISHERS OF NEWSPAPERS AND PERIODICALS may send to each other from their respective offices of publication, free of postage, one copy of each publication, and may send to each actual subscriber inclosed in their publications, bills and receipts for the same, free of postage. They may also state on their respective publications the date when the subscription expires, to be written or printed.

Religious, Temperance, Educational and Agricultural Newspapers of small size, issued less frequently than once a week, may be sent in packages, to one address, at the rate of one cent for each package not exceeding four ounces in weight, and an additional charge of one cent is made for each additional four ounces or fraction thereof, the postage to be paid quarterly or yearly in advance.

NEWSDEALERS may send newspapers and periodicals to regular subscribers at the quarterly rates, in the same manner as publishers, and may also receive them from publishers at subscribers' rates. In both cases the postage to be prepaid, either at the mailing or delivery office.

Publications issued without disclosing the office of publication, or containing a fictitious statement thereof, must not be forwarded by postmasters, unless prepaid at the mailing office at the rates of transient printed matter.

POSTAGE ON TRANSIENT PRINTED MATTER.

Books, not over four ounces in weight, to one address, 4 cts; over four oz. and not over eight oz., 8 cts.; over eight oz. and not over twelve oz., 12 cts.; over twelve oz. and not over 16 oz., sixteen cts.

CIRCULARS, not exceeding three in number, to one address, 2 cts.; over three and not over six, 4 cts.; over six and not over nine, 6 cts.; over nine and not exceeding twelve, 8 cts.

Exchange newspapers and periodicals cannot be remailed without being chargeable with postage.

Where packages of *newspapers* or *periodicals* are received at any *post office* directed to one address, and the names of the club of subscribers to which they belong, with the postage for a quarter in advance, shall be handed to the postmaster, he shall deliver the same to their respective owners. But this does not apply to weekly newspapers which circulate free in the county where printed and published.

FRANKING.—Franking is restricted to the president, his private secretary, the vice-president, heads of executive departments, heads of bureaus and chief clerks to be designated by the Postmaster-General, senators and representatives, secretary of senate and clerk of house. Besides these, the commissioner of Education possesses the official privilege; and all copyright books, maps, etc., may be forwarded to the Librarian of Congress, free of postage, provided the words "copyright matter" be plainly written or printed on the package. And postmasters are required to give receipts for such packages if required. Certain Revenue officers, also, besides those mentioned in the section above named, possess the privilege as an official trust, as follows: Assessors may frank on official business to Assessors, to assistant Assessors, and to Collectors; Assistant Assessors may only frank to Assessors. Collectors may frank to collectors, Deputy Collectors and Assessors; Deputy Collectors may frank only to Collectors. No communication, official or otherwise, from these officers to private citizens can be sent free. The Act of March 1, 1869, relating to franking, makes no change in the privilege, but merely enacts that the signature of the franking party must be written, and not printed. Documents from officers to their several departments, marked official, also go free; also *Petitions* to Congress. The weight of franked matter must not exceed four ounces per package, save Congress books, &c.

FOREIGN POSTAGE.—On letters to England or Ireland, 12 cents, prepaid, subject to a fine of five cents additional if not prepaid; on newspapers 2 cents, prepaid. To Canadian provinces, on letters six cents, if prepaid, and ten cents if unpaid or insufficiently paid—payment to be in U. S. postage stamps—not in money; On newspapers 2 cents, prepaid. For rates and routes to other foreign countries, inquire at your post office, as the rates, by different routes, to the same destination, vary greatly.

Many errors occur by persons not observing the following regulations in depositing letters, papers, or miscellaneous publications (not franked) for mailing:

Prepayment by stamps required on all letters to places within the United States. Full prepayment by stamps required on all transient printed matter, foreign and domestic. All matters conveyed by mail westward beyond the western boundary of Kansas, and eastward from the eastern boundary of California, except one newspaper to a *bona-fide* subscriber, and franked matter, must be prepaid at letter rates.

Valuable letters for any part of the United States, Canada, Great Britain, Holland, the Italian States, or States of the German-Austrian Postal Union, will be registered on application at the office.

Book copy, whether printed or written, and Proof sheets may be sent by mail, between Authors, Editors or Compilers and their Printers or Publishers, at the rate of two cents for every four ounces or fractional part thereof. The publishers add this note because from their familiarity with authors they have reason to think many are ignorant of such a benevolent provision.

THE GOVERNOR

Of New-Hampshire is chosen, annually, on the second Tuesday of March, by a majority vote, and takes his seat on the first Thursday of the following June. In case of no election by the people, the Legislature elects one of the two persons having the highest number of votes.

A person, to be qualified to hold the office of Governor, must be thirty years old and an inhabitant of the State for seven years, last preceding his inauguration. In case of the death, disability or resignation of the Governor, the office is filled by the President of the Senate.

The Executive Council consists of five Councilors, elected by districts at the same time and in the same manner as the Governor. The Governor and Council appoint all judicial officers—the attorney general, solicitors, notaries, sheriffs, coroners, registers of probate, and general and field officers of militia.

Judicial Districts—Law Terms.

By a Law passed by the Legislature of 1872, the old Judicial Districts are done away with and the Law Terms of the Supreme Judicial Court are now held in Concord instead of in different parts of the State, as formerly, (See Register 1872, p. 58) and there are only two terms for the whole State, in each year, viz. one commencing on the first Tuesday of June and the other on the first Tuesday of December.

The following is the Rule of Court with respect of the order of business:

"At each of the Law Terms the business of the respective Counties shall be attended to in the following order, *to wit*:

- 1.—Rockingham, Strafford, Belknap and Carroll on the first Tues;
- 2.—Merrimack and Hillsborough on the second Tuesday;
- 3.—Cheshire, Sullivan, Grafton and Coos on the third Tuesday of said Terms."

TRIAL TERMS.

For the County of BELKNAP, at GILFORD, on the fourth Tuesday of March and the fourth Tuesday of September.

For the County of CARROLL, at OSSISPEE on the third Tuesday of April and the third Tuesday of October.

For the County of CHESHIRE, at KEENE, on the first Tuesday of April and the third Tuesday of October.

For the County of COOS, at COLEBROOK on the first Tuesday of February and the third Tuesday of August, for the Northern Judicial District; and at LANCASTER on the fourth Tuesday of April and the first Tuesday of November for the Southern Judicial District.

DEPARTMENT OF EDUCATION—CONTINUED FROM PAGE 62.

New-Hampshire was settled in 1623. In 1642, whilst it was united with Massachusetts under a common jurisdiction, the first school law was enacted, ordering that the "Selectmen in every town shall have a vigilant eye over their neighbours to see that none of them shall suffer so much barbarism in their families as not to endeavour to teach their children and apprentices to read the English tongue, and get a knowledge of the capitol laws." The act of 1647 ordered that every "township of 50 house-holders shall appoint one within the town, to teach their children to write and read," and that every "township of 100 house-holders shall set up a Grammar school to instruct the youth for the University." The law of 1667 commands the appointment of a school-master and the building of a school-house in every town. The first action of the N. H. Legislature required the Selectmen to levy a tax to build a school-house, and that the town shall provide a school-master. The statute of 1789 required that each town should raise for schooling four pounds for every pound of the proportion of public taxes. The Legislature of 1804 raised the rate of taxation to forty-five dollars for every dollar of public tax. Previous to 1805 the *District System* was unknown. That year an act was passed empowering towns to divide into school districts. The statute of 1827 ordered the sub-division of towns into school districts. The act of 1843 required that sub-division under severe penalty. The law of 1808 recognized the School-mistress, but fixed moderate requirements. In the great law of 1827 her requirements were enlarged. In 1858, the distinction in qualifications of the sexes was abolished. The Legislature of 1846 established the office of "Commissioners of Common Schools," and required the Superintending Committee of each town to render an annual statistical report to the Secretary of State for the Annual Report of the Commissioner. The office of Commissioner was suspended for 1848 and '49. In 1850 a Board of County Commissioners was instituted. In 1867 the office of State Superintendent of Public Instruction was established.

The statute of 1870 established the State Normal School, raised the assessments for school taxes to three hundred and fifty dollars for every dollar of public tax, and authorized towns to abolish the system of School Districts. The act of 1871 provided for Teachers' Certificates for the State, for a term of years. Female citizens may be chosen for Prudential Committee or Town School Committee by the law of 1872.

NEW-HAMPSHIRE BUSINESS DIRECTORY.

Memoranda and suggestions concerning the way of finding what you wish in the following pages.

I. THEY CONTAIN

The name of every Town in the State, printed in black letters, with the name of the County immediately following, in italic capitals; then the population in 1870; next the direction from Concord, with the distance, and then the name of the R. R. station most convenient of access. Next come the names of the principal Town Officers, the Postmasters and the Justices of the Peace, and finally, a list of the various businesses and professions, and the names of those engaged in them.

II. IN LOOKING FOR A NAME,

Find first the *Business* printed at the beginning of the line, in prominent type, and in alphabetical order. Then, if the list is long, it generally has *sub-divisions*—as, for instance, under *Manufacturers* will be found the various articles made in quantities, in the town—arranged also in alphabetical order—the division between different articles being marked by a semicolon (;).

III. DIVISIONS OF THE TOWN.

If of sufficient importance to make it desirable, are arranged, following the main town, in the same manner.

IV. MERCHANTS AND PHYSICIANS.

"Country Merchants," or those keeping a general assortment, always come first among merchants, and so do Allopathic Physicians among physicians—Specialists are arranged alphabetically, according to their specialties, after.

V. CHURCHES.

Every organization calling itself a Church is mentioned, by its usual name abbreviated, as Bap. for Baptist, and if it has a settled preacher, his name follows immediately after the name of the Church.

VI. FINALLY,

Persons *well posted* in town affairs, who notice any errors (which of course there will be), are kindly requested to point them out to the publishers, who desire nothing more than to make this little book a reliable guide and authority to all who wish to know anything about the business interests of the State. The Register will go into every State in the Union, and every New-Hampshire man is supposed to have sufficient State pride to make him wish to have his *home* represented abroad *exactly* as it is.

and its assets are rapidly increasing. Its annual income exceeds
ONE MILLION OF DOLLARS. Its investments are confined,
 by statute, to those most solid and reliable.

IT IS PURELY MUTUAL.

There are no Stockholders to whom heavy dividends or excessive
 interest is paid, but all the surplus belongs entirely to the assured.

**IT PAYS DIVIDENDS AT THE BE-
 GINNING OF THE SECOND YEAR,**

And annually thereafter on the contribution plan. It has paid out
 to living members over \$1,000,000 in Dividends.

Its disbursements to the families and relatives of deceased members
 have reached the still larger sum of over \$1,500,000.

It is economical in expenses.

No extra rates charged on the lives of females.

All its policies are made

NON-FORFEITABLE,

LOCATED AT MONTPELIER, VT.

ORGANIZED 1850.

Cash Assets Nearly \$1,500,000.

JULIUS Y. DEWEY, Pres't.

GEO. W. REED, Secretary

CHAS. DEWEY, Vice-Pres't.

EDWARD DEWEY, Actuary.

This reliable New England Institution continues to issue Policies on all the ordinary plans at the lowest SAFE rates, but makes a specialty of

Endowment Assurance at Life Rates.

This feature is peculiar to the National, and is endorsed by Hon. Elizur Wright, of Mass., and other prominent Insurance men, as "the most Equitable kind of Insurance offered by any Company." Investigation and comparison with other Companies is courted.

The National has more assets in proportion to its liabilities than any other Company. The cost of doing its business is less than any other, with two or three exceptions. The interest actually received in the year 1871, paid all the losses, and nearly all the expenses.

XXX FLAVORING
EXTRACTS!**

These Extracts were awarded the First Premium at the New England Fair, held at Lowell, in September, 1871. Their superiority consists in their

Perfect Purity and Great Strength,

Which have secured for them great popularity wherever introduced. Being made from the choicest fruits and spices that can be obtained, uniform strength, purity and excellence of flavor is thereby secured. They are warranted free from the poisonous oils and acids which enter into the composition of many of the so-called fruit flavors now in use, and are of triple strength, hence a comparatively small quantity only need be used, which render their use a matter of economy.

R. DANIELS'

Patent Apple Crusher,

For Crushing Apples, Grapes, Corn, &c.

Patented May 26, 1869, also June 18, 1872.

This Mill consists of Two Crushing Rollers of different sizes running equal revolutions, so as to give the apple a rolling motion while being crushed, turned and planed exactly true, with ribs projecting one-sixteenth of an inch, just wide enough to set the Rolls apart to let the apple seeds through, and are kept apart with two set screws so arranged that you can widen the space between the Rolls so as to let a peach stone through without cracking it. The Rolls are held together by springs and can be set so light that one lb. pressure would hold them apart, or they can be set hard enough to crack corn. This arrangement allows nails, stones and hard substances to pass between the Rolls without injury to the Mill. This is a principle which no other Mill has a right to use. We warrant our Power Cider Mills to crush a bushel or more apples with less power, less time with the same power, get more cider, clearer and better than can be done in any other Apple Mill now in use in this country. We build three sizes, viz:

No. 1, Hand Mill (without Press) will crush 50 bushels per hour with horse power; with man, 5 to 15. Price \$30.

No. 2, One Horse Power, 50 to 100 bushels per hour. Price \$50.

No. 3, Two Horse Power, 100 to 200 bushels per hour. Price \$80.

Read what one of the largest Manufacturers of Cider and Cider Vinegar in New England says.

Milton, Mass., June 29, 1871.

MR. R. DANIELS—*Dear Sir:* The Cider Mill I bought of you last fall gave me such entire satisfaction, I thought I would drop you a few lines to that effect. I have always used the grater, but find your Mill far superior. With the grater, there are a great many small, hard pieces, that is next to impossible to extract the juice, while yours so completely crushes the apples that it leaves the juice free to run with much less pressure; or, otherwise, you can obtain much more cider with the same pressure. Besides, the cider is very handsome, bright and clear, and very free from the small particles or pomace which you will find considerably in cider made from grated apples. I think it will give satisfaction to every one who gives it a trial.

Yours truly,

C. L. COPELAND.

We have made great improvements this year (1872) and sold Mr Copeland another No. 3 Mill.

MR. REUBEN DANIELS—*Dear Sir:* I have got the Mill up and it works splendidly. It could not be better. We are grinding thirty barrels easily in twenty-two minutes. Yours truly, C. L. COPELAND.

Any amount of similar testimony could be furnished if necessary.

The only Fair at which we have exhibited our Mills was at the Vermont State Fair, Sept. 13, 1872, when we drew the first premium, \$10

DANIELS' MACHINE Co., Woodstock, Vt., only Manufacturer.

PETTENGILL'S KIDNEY-WORT

OR PILE COFFEE

TRADE MARK

"GREATEST BLESSING OF THE AGE."

This invaluable medical compound is not liable to the common prejudice against such liquid preparations as "Bitters," "Buchus," &c., doctored with poisonous rum or minerals. It is a dry, purely vegetable compound (requiring only the addition of pure water,) possessing remarkable curative properties—a gentle cathartic, without debilitating, (as is the case with most purgatives,) removing all unhealthy secretions and vitiated blood, healing and invigorating the system; effectually curing some of the most common and painful diseases afflicting mankind that baffle medical skill: all forms of

Piles, Kidney Complaints, Gravel, Lumbago, Constipation, &c.

WARRANTED TO AFFORD RELIEF.

Joy has come to thousands of sufferers from piles and kidney complaints by the use of Pettengill's Kidney Wort, and still greater numbers as they learn of its remarkable curative properties will yet rejoice to find permanent relief in a remedy so simple and yet so efficient. In the circulars published are a few testimonials: Wm. B. Skeels, of Highgate, was cured more than four years ago, and but for it he says, "I firmly believe I should not now be alive." H. A. Hinkley, of St. Albans, after suffering for seventeen years, was relieved by the Kidney Wort, and says, "I regard it as one of the greatest blessings of the age." B. Ryder, Railroad conductor at Bedford, Ms., under date of Aug. 8, 1872, says: "I am confident that if I had not taken it I should not now be alive." Regular Physicians use it. Dr. R. R. Clark who has a large practice in Grand Isle Co., and is the worthy Deacon of a Congregational church at So. Hero, Vt., says: "*It works like a charm*, better than any other remedy for Piles and Kidney troubles I ever used—always beneficially." About a year later, under date of July 11, 1872, in ordering some more Kidney Wort, Dr. Clark says: "My confidence in its value continues unabated. I have received several letters, addressed to me from different parts of the country, asking if what purported to have come from me and published in your circular, was genuine—if it really came from me, and if I still held the medicine in favor; to all of which I could most conscientiously answer, yes. I have sent some to Missouri, and to Clarksville, Va., to acquaintances who have written to me to prescribe for them."

Sold by dealers in medicine generally, who are supplied also with circulars. If the Kidney Wort cannot otherwise readily be obtained, the Kidney Wort Co., St. Albans, Vt., will send a package to order, postage paid on receipt of one dollar. MONEY

Can be made! Agents wanted.

We feel warranted in saying to Active Energetic Men everywhere, that there are but few if any other articles in the market that yield such *large profits with small capital* as our Wringer and Washer. Any farmer, mechanic, or laboring man who will persevere and not be idle, can make from \$100 to \$200 per month. The business requires but a small capital and involves no risk. As

COLBY'S PREMIUM WRINGER and the COLBY LITTLE WASHER,

Price \$5.00.

Are now unquestionably the most practical and *perfect*, and we propose to make them the **MOST POPULAR MACHINES** in the world. To accomplish this as speedily as possible we are dividing up the territory by Towns or Counties to local or canvassing Agents. Such Agents we want everywhere, until the field is all occupied. To men and women who are willing to work, and want to *make money*, we offer to make liberal inducements.

From a long experience with agents and the best methods of selling such articles we have compiled some instructions and advice which we will send free to all who request it.

Head your letters with your Post Office address, *always indicating the Town, County and State.* Address,

Shepard & Allen's WRITING FLUID

Flows as freely as any ink made. It will not mould; will not corrode steel pens, and is not affected in the **LEAST BY FREEZING.** Its color is a fine purple-black, being dark when first written, so that the finest line is distinctly seen the moment it is put on paper.

State of N. Y. Comptroller's Office...

ALBANY, March 17th, 1871.

During the past three years **SHEPARD & ALLEN'S WRITING FLUID** has been very extensively used and has given the best of satisfaction, I believe it is in all respects as good a flowing ink as I ever used, and take great pleasure in recommending it to others.

G. H. GOODWIN, Stationery Clerk.

Tioga County Clerk's Office.

I regard it (**Shepard & Allen's Writing Fluid**) the best in the world and unhesitatingly recommend its use to all.

OWEGO, N. Y., Sept. 22, '69, H. A. BROOKS, Co. Clerk.

It flows freely, has consistency, turns jet black at the time of writing and is enduring.

E. G. FOLSOM, Proprietor Albany Business College.

It is the best ink that I ever used.

L. V. DE GRAFF, Principal Flour City Hall Academy, ROCHESTER.

The young ladies all acknowledge the superior quality over all other inks they hitherto have used.

J. N. SCHOAR, Register Vassar College.

Gives the best satisfaction of any ink I have ever sold.

The St. Albans Lime.

MANUFACTURED BY

C. H. FONDA, St. Albans, Vt.

IS ABSOLUTELY

THE PUREST LIME IN THE UNITED STATES.

It has been analyzed by Prof. A. D. Hager of New York, who pronounces it

99 $\frac{1}{2}$ per cent. Pure Lime.

It is particularly adapted to Paper Makers' and Bleachers' use, as it is unequalled in pureness, whiteness, and strength. Parties who have used it for these purposes will use no other. For Masons' use it is best and cheapest, as it takes more sand than other lime, and makes

A STRONG, WHITE PLASTER.

Put up in 200 lb. and 300 lb. Barrels, (net weight,) and warranted full weights. The barrels are well coopered and nailed—are made of spruce and will not fall to pieces by handling.

Address

C. H. FONDA, St. Albans, Vt.

We have used about 300 barrels of this Lime in the past six months and find it far superior in strength and purity to any we have tried.
Dec. 1872.

DOWNS' ELIXIR.

HENRY'S VERMONT LINIMENT, THE GREAT INTERNAL AND EXTERNAL REMEDY

Henry's Worm Lozenges are warranted safe and sure, - a white Sugar Drop or Lozenge.

When the chilling winds of winter
Howl amid the leafless branches,
When from out the North the Storm King
Marches with his snowy Banners,—
And with fierce and sudden conquest
Lays all summer dead before him:
Every flower and every leaflet
He lays stark and dead before him;
And the singing birds of summer
Fly away from all the Northland,
Where the air seems full of arrows,
Full of sharp and stinging arrows
That will pierce us, if we venture
But to step outside the doorway,
Then Consumption, fell destroyer,
Ballies forth to seek his victims.

Coughs and Colds are his forerunners,
Marking where success is easy;
And, where these are not resisted
But allowed to hold possession,
Then Consumption, gaunt and ghastly,
Soon will make his dread appearance,
And will seize his hapless victims.

Would you have a sure protection
From this foe, so justly dreaded?
A protection so unfailling
That you need not fear his visits?
Go and Buy some DOWNS' ELIXIR,
Some real N. H. Downs' Elixir;
Made from all most healing Balsams
Found in all the Northern forests,—
Balsams of the Pine and Fir tree:
Made in Burlington—a city
Standing near the Champlain waters;
At one hundred twenty-seven,
Very near the head of Church Street,
By the firm of HENRY & JOHNSON,
Medicine men, well known to many:
And for sale at every Drug Store
Throughout all the frozen Northland.

'Tis a safe and sure protection,
Go and buy it, and be happy.

Henry's Electric Ointment - - - used with Johnson's Condition
Powders, warranted to cure Scratches.

PROF. MOTT'S MAGIC HAIR INVIGORATOR.

Every Lady should keep it on her toilet stand. It is a nice Dressing.

CRAMPTON'S IMPERIAL Laundry Soap!

Will wash with Hot or Cold Water.

Superior for the Laundry; Good for all kitchen purposes,
cheaper for washing than Soft Soap at four
Dollars a Barrel, and a

Splendid Toilet Soap,

Leaving the skin soft and white without injuring it.

Good Soap, like good wine, is improved by age,—Among
the ruins of Herculaneum and Pompeii, Soap was
found in a good state of preservation, after
having been buried over 1,700 years.

A box of Soap in a family is better than "money at
interest," as when from three to six months old, one
pound will go further than three pounds of new soap. Ask
your grocer for a box of

Crampton's Imperial Laundry Soap,

And if he does not keep it send your orders to

CRAMPTON BROS.,

33 & 35 Jefferson Street,

NEW YORK.

MAKE YOUR OWN SOAP.

One pound of Crampton's Imperial Laundry Soap will
make twelve quarts of handsome Soft Soap. Ask your
Grocer for it and try it. Directions on wrapper.

WALKER & BANCROFT'S
NEW AND IMPROVED PATENT

The attention of Printers is hereby called to this new and exceedingly useful machine, the want of which has been so long felt among the trade. It is believed that this is *the only machine* in the market that will cut, square, and miter any thickness of brass rule or leads. Machines have been made for cutting, and others for squaring and mitring; but all these operations may now be performed with this *one* machine, occupying hardly any more space than the old fashioned lead-cutter. It is surprising with what ease it cuts the thickest hardened brass rule. For rule and figure work it is indispensable, as it cuts the rule and leads without curling or breaking, and of any length required.

No Office should be without one.

The advantages of this machine are briefly summed up as follows:

- 1st. It will cut any thickness of rule now made.
- 2d. It will miter the same with accuracy to any desired angle.
- 3d. It will cut thin brass rule for tabular work without *curling* the short pieces needed.
- 4th. It is a very superior and quick lead-cutter.
- 5th. The machine is so constructed that the cutting knives never run work loose and rickety as other rule and lead-cutters *invariably* do after being in use a short time.
- 6th. The arrangement of power is such that it cuts with great ease.

Other advantages might be enumerated and certificates of its superiority given from those who have used it. One of these machines has been in constant use for more than a year at the well-known "Riverside Press," in Cambridge, Mass., and given great satisfaction.

THEIR

RELATIVE INTELLECTUAL CLAIMS COMPARED.

The above is the title of a book by the Rev. R. W. MORGAN, perpetual Curate of Tregynon, recently reprinted by the Publishers of the New Hampshire Register. The author says "It contains the substance of certain conversations between a person of property and position, professing Infidel principles, and the author, on the subject indicated by the title;" and he adds that "As the principles of Infidelity are unfortunately not confined to any one class of society, the composition has been made as plain, and the diction as little technical, as the nature of the subjects under discussion admitted."

SEND FOR A COPY.

It is put up in two forms; in paper covers, at sixty cents; and printed on better paper, and bound in extra muslin, at one dollar and fifty cents. Either kind will be sent by mail, post paid, without any addition to prices stated, on receipt of the money by

Something New in Paper Machinery.

TAYLOR & BRIGHTMAN'S PATENT

Corrugated Engine Roll

—AND—

BED PLATE.

It is a well-known fact with all paper manufacturers, that there has been no improvements made in Paper Bag Engine Rolls since they first came into use, about the year 1750. After a series of experiments, we have perfected an Engine Roll and Bed, that has many advantages and improvements over the ordinary Engine with straight Bars, some of which we will enumerate.

More capacity and beating surface. Takes less power. More strength. Costs less money. Does not clog the stuff at end of roll, where a large amount of power is wasted. The knives never require chipping or get dull. Less liable to injury from iron or other foreign substances getting into the engine. Can be attached to the old spindle in a few hours.

Many improvements have been made in Beds, over the old Elbow Plates, down to the Angular Bed Plates. We claim the same improvement on the Bed Plate, over all others, as on the Roll. They are made without bolts, giving more depth of steel, or cutting surface. Cost less money, and never get out of order.

We make the double or reverse Corrugated for the straight Bar in Roll, which will keep the Bars in Roll and even surface.

We can make the Rolls or Beds any desired thickness of steel wanted, or any number of Bars desired, in the Bed or in the Roll.

The Corrugated Bed has this advantage over the Angular Bed—the Bars are irregular the entire length, and leave no sharp corners in the bend of the Bar.

We fill our Beds with a water proof filling; and the chemicals have no action on the filling, as they do when wood is used.
